UNIDIR
UNITED NATIONS INSTITUTE FOR DISARMAMENT RESEARCH

WHAT IS THE CYBER POLICY PORTAL?

- An interactive reference tool for policymakers: comprehensive cybersecurity policy database
- Maps cybersecurity policy landscape across the UN Member States, regional IGOs and multilateral frameworks
- Launched in January 2019 and currently used in 150+ countries
- 2000+ pages of critical information on cybersecurity policy, coming from official open sources

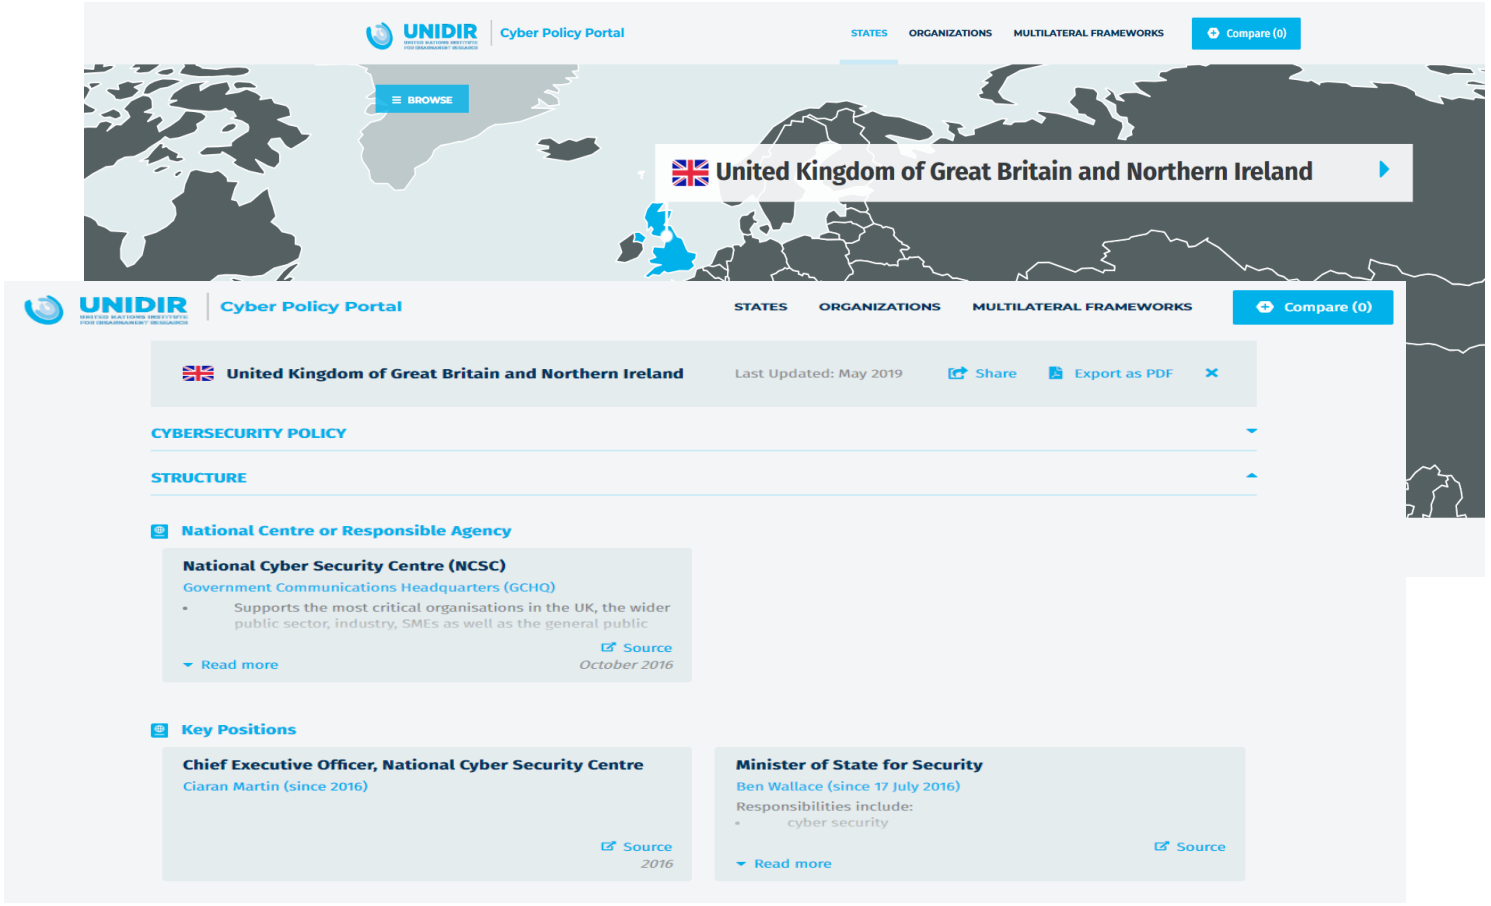
ENTITIES REPRESENTED

- **States:** individual profiles of all 193 UN Member States
- **Regional organizations:** 13 profiles with focus on the regional ones)
- **Multilateral cybersecurity frameworks:** 13 profiles of intergovernmental agreements and other frameworks

UNIDIR
UNITED NATIONS INSTITUTE FOR DISARMAMENT RESEARCH

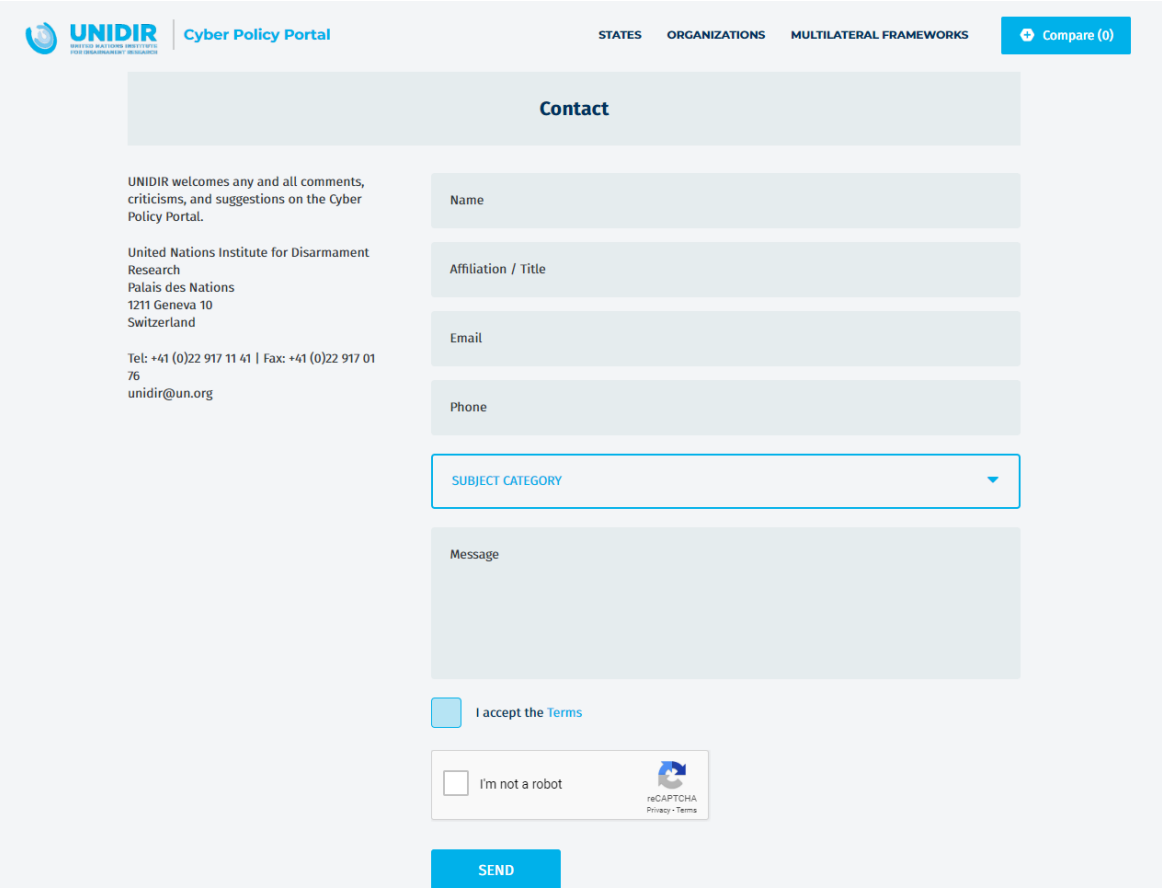
COUNTRY PROFILE STRUCTURE

- Cybersecurity strategy documents and implementation frameworks
- Cybersecurity legislation
- Key dedicated structures and positions in charge of cybersecurity policy
- International cooperation declarations, initiatives and frameworks



UNIDIR
UNITED NATIONS INSTITUTE FOR DISARMAMENT RESEARCH

FEEDBACK AND INTERACTIVE MECHANISMS



- Feedback mechanism to ensure the veracity of information and allow accurate and timely updates
- Requests for updates are regularly sent to States and IGOs; feedback is used to update the content
- Further goals: development of tools for automated updates by partners

UNIDIR
UNITED NATIONS INSTITUTE FOR DISARMAMENT RESEARCH

PARTNERSHIP FRAMEWORK

1. **Governments** of the 193 UN Member States - primary source of official information on national cybersecurity policy developments
2. **Regional organizations** (OAS, OSCE, AU, ASEAN, etc.) that serve as regional centers of capacity building activities in cybersecurity policy
3. **Private sector:** Tech companies that promote and participate in multistakeholder frameworks, initiatives and programmes aimed in cybersecurity arena
