Why this is not about the fridge...

We think of the IoT this way...

1. **Sensors** (very simple & often not visible)
2. **Data analytics** (to make sense of it all)
3. **Actuators** (physical effect – without humans)

Potential for the IoT to...

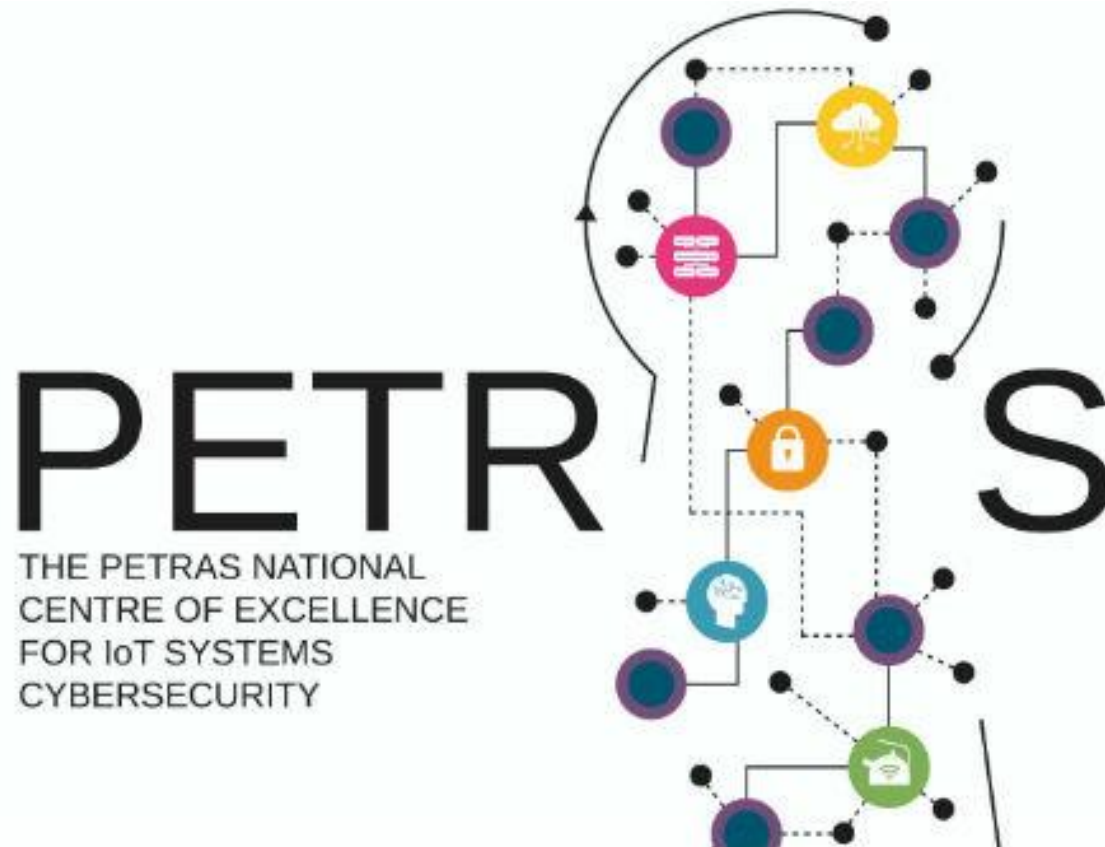

What are the international IoT security risks?

Implications for those of us in this room:

- Laws of Armed Conflict and Cyber Norms
- Key problem is poor knowledge exchange
- Engage with new policy approaches
- Internet of Things People
