

Vulnerability Disclosure

Gaus <gaus.rajnovic@eu.panasonic.com>

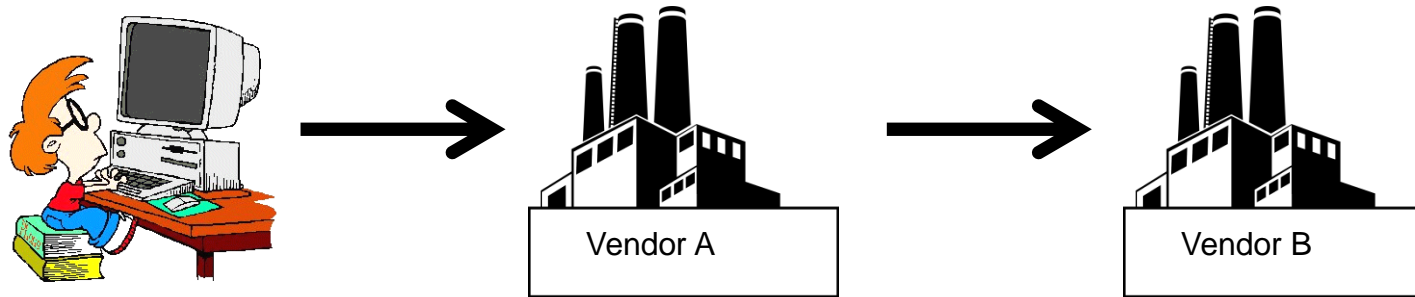

- Ask vendors to comply with ISO 29147 and ISO 30111 for government procurement
- Having accurate SW bill-of-material is very important
- Do not criminalise research and reporting of vulnerabilities
- Do not mandate vulnerability disclosure to the government

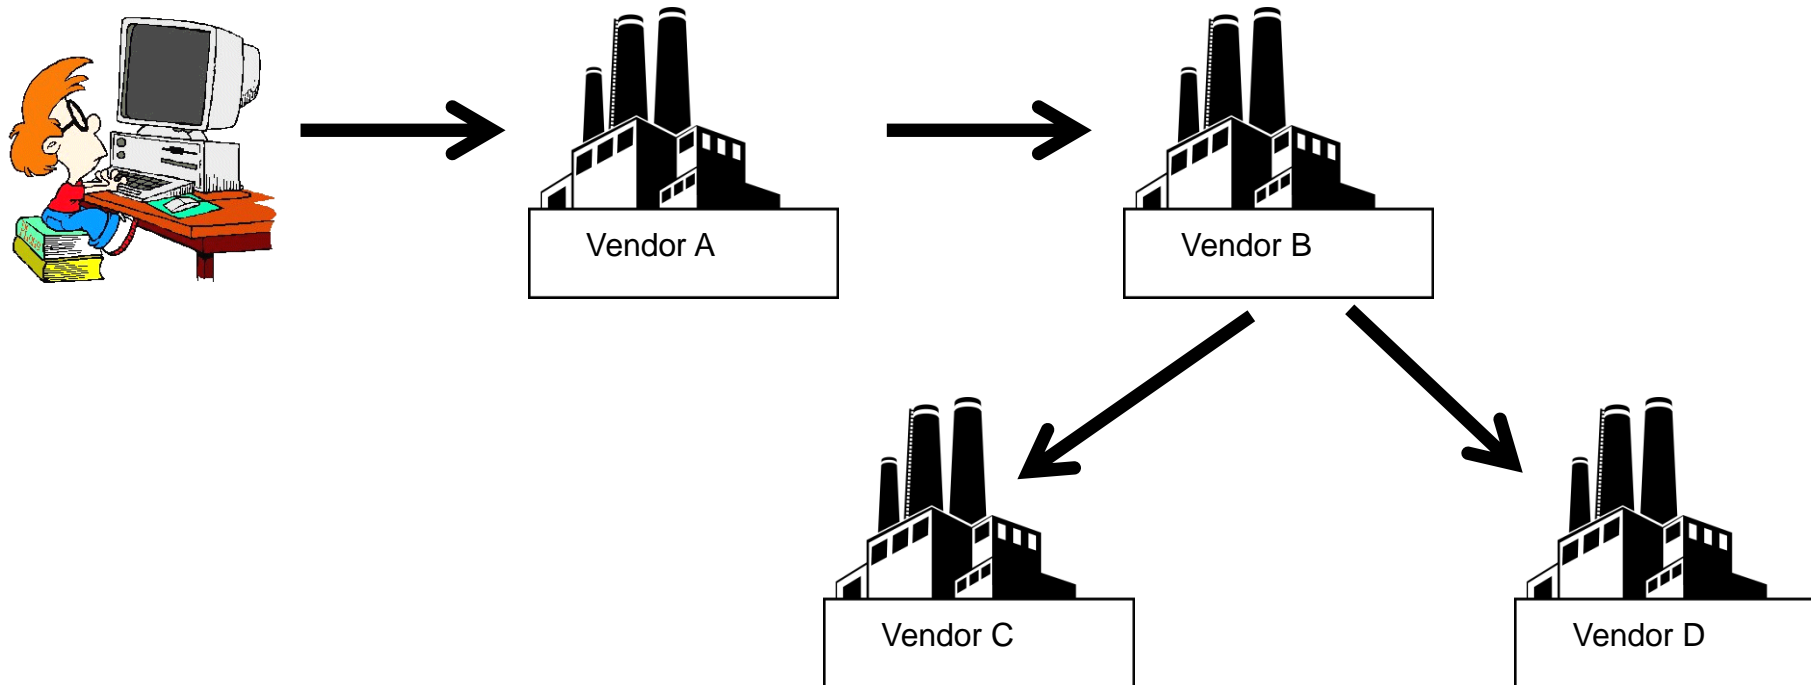

- Vendors are only part of the solution – users are bigger part
- Disclosing vulnerability to one vendor is not always enough

- Vendors are only part of the solution – users are bigger part
- Disclosing vulnerability to one vendor is not always enough

- Vendors are only part of the solution – users are bigger part
- Disclosing vulnerability to one vendor is not always enough
